

### **Assignment 1: Professional Issues**

1. Search the internet for continuing education classes that are offered that may be of interest to you in your future years. Prepare a summary of the types of workshops available and how they would supplement material that you have learned in your formal university education.
2. Also, prepare a summary of the job opportunities available to a person having a FE and a PE License. What work activities would you not be able to do if you are not registered as a professional engineer?
